

## Recycling Information

### Leaflet 10: ChillPhase® Organic PCM bottle pack

#### Environmental summary

ChillPhase® consists of two main components:

- Natural based organic high purity hydrocarbon solution, with added blue colour dye.
- High density polythene (HDPE) blow moulded bottle with welded cap.

ChillPhase® is designed to be reusable.

#### Disposal considerations:

1. DO NOT break seal
2. DO NOT empty contents into drains or water courses
3. This product should not be disposed of in the general waste or recycled. It should be disposed by energy recovery, if possible
4. Advice on the preferred method should be sought from National and local Waste Regulation Authorities or equivalent bodies if outside the UK.
