

Durable Insulated Containers

FOR HEALTHCARE

ThermoSafe® Durable Insulated Containers keep your temperature-sensitive products at the proper temperature and preserve product quality. Use these bulk insulated containers to effectively transport API and optimize mixed loads of refrigerated, frozen, and controlled room temperature product. Our durable insulated containers are also ideal for temporary storage in the warehouse, on the pack out line, and for the storage refrigerants and dry ice.

Ranging in various sizes and styles, these durable insulated containers make storing, transporting, and unloading efficient and worry-free. High impact polyethylene can handle the rigors of transport: the tight fitting lid and container construction, maintains temperatures, and maximizes shipping and transporting efficiency. Pre-qualified solutions available.

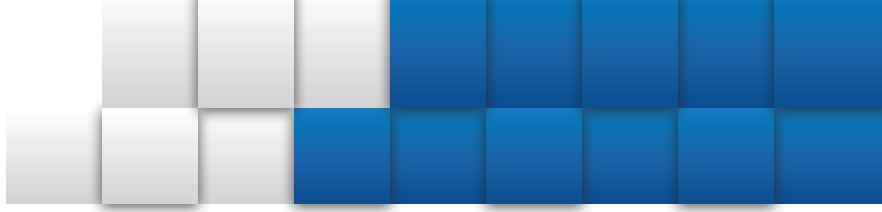

TOP LOAD MODELS

...IMAGINE THE POSSIBILITIES

Ergonomically designed to promote operational efficiencies and maximize cube space within a truck—all while maintaining the required temperature.

- Double-wall construction with specialty treated high impact polyethylene enhances foam adhesion and adds structural strength
- Specially formulated foam-in-place urethane insulation provides outstanding temperature control and long lasting durability
- FLX-SEAL® doors on front load models fold up and out of the way, allowing for complete product access
- Available in top load or front load styles ranging from 1 to 74 cubic feet capacity, and can hold up to 1,450 lb of pellets or cut dry ice
- Pre-qualified solutions utilizing standard components provide validated temperature performance
- Optional accessories include: dry ice compartments, shelving, drains, casters, airflow floors, retention straps
