

# PUR Products

**We have a large range of Polyurethane (PUR) boxes and pallet shippers which can be used in combination with our cool packs to create an infinite number of temperature assurance shipping solutions.**

- Rigid, one piece, three layer laminate construction provides excellent temperature protection
- Fewer refrigerants needed as PUR has twice the insulation R value of EPS
- Shippers can provide up to 6 days duration
- Particularly good insulators for frozen shipments when combined with dry ice
- PUR is robust providing exceptional strength and durability
- Flexible polyurethane foam plug seals the top, cushions and insulates the contents and vents dry ice
- Large range of sizes available which can be used in combination with several refrigerants to create a bespoke shipper
- PUR pallet shippers also available
- Withstands crush compression in excess of 5000 lb
